Gambe per tavoli
Table legs

Gambe /Legs

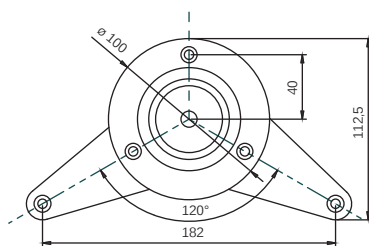

TIPOLOGIE DI APPLICAZIONE / APPLICATIONS TYPES

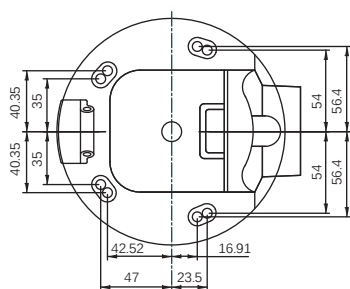

PIASTRE FISSAGGIO / FIXING PLATE

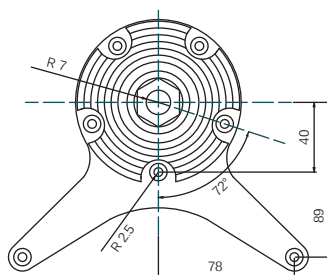

Piastra in acciaio attacco ortogonale 90°
Steel plate for 90° orthogonal connection

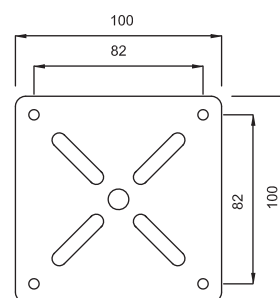

Piastra in alluminio pressofuso attacco ortogonale 90°
Alluminium alloy plate for 90° orthogonal connection

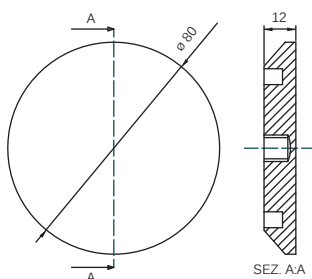

Piastra in nylon per gamba pieghevole FLEXO
Nylon plate for folding leg FLEXO

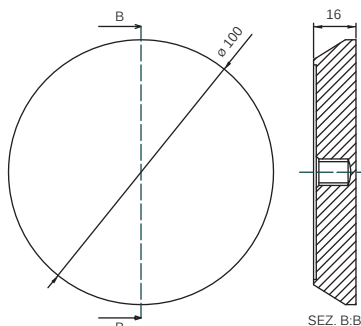

Piastra in metallo pressofuso TUBUS attacco 90°
Steel alloy plate for TUBUS legs connection 90°

Piastra saldata / fissa in metallo attacco 90°
Fix steel plate for legs connection 90°

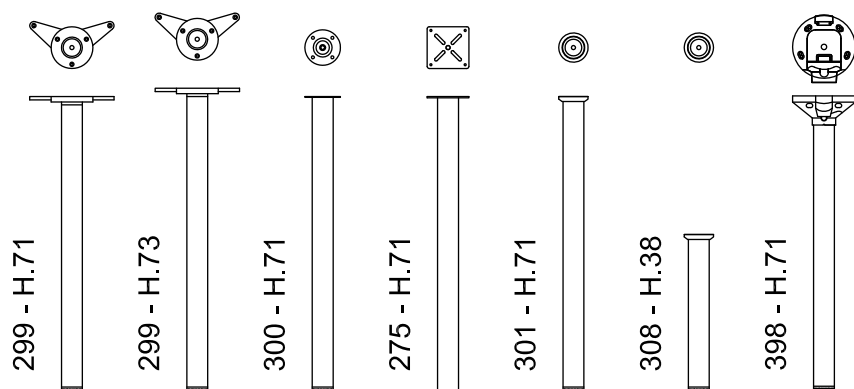

Platorello in inox per gamba $\varnothing$ 60 mm - Fil. 10 MA
Inox plate for $\varnothing$ 60 mm leg - T. Pin 10 MA

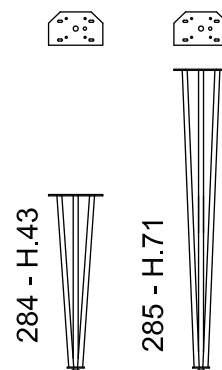

Platorello in inox per gamba $\varnothing$ 80 mm - Fil. 10 MA
Inox plate for $\varnothing$ 80 mm leg - T. Pin 10 MA

Gambe in alluminio /Aluminium Legs

TIPOLOGIE DI APPLICAZIONE / APPLICATIONS TYPES

DESIGN By FAUCIGLIETTI ENGINEERING

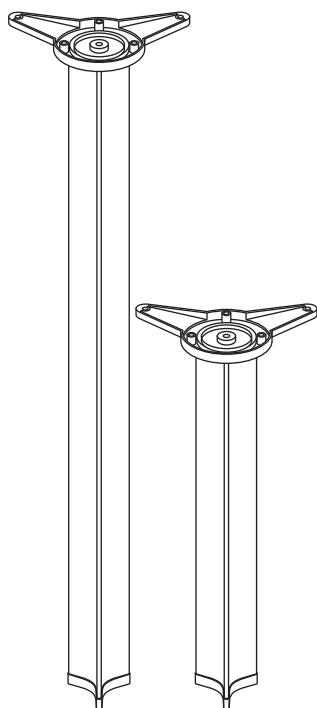

Star

I profili in alluminio sono realizzati in leghe primarie. Vengono lavorati meccanicamente e trattati superficialmente con processi diversi per dare origine a una vasta gamma di prodotti finiti. Il profilo è brevettato ed ha un'alta valenza progettuale e di design. Le piastre utilizzate per i fissaggi ai piani di legno sono tutte in metallo pressofuso (alluminio).

Extruded aluminium profile are made of primary alloys, it is machined and processed on the surface in order to obtain a wide range of finished products. All fixing plates for connection with wooden tops are made of die-cast metal (aluminium).
